SUMMARY

Detail-oriented and highly motivated web developer, passionate about creating visually appealing and user-friendly interfaces. Proficient in HTML, CSS, and JavaScript, focusing on modern frameworks such as React. I am passionate about staying up-to-date with the latest trends and technologies, such as responsive design, progressive web apps, and performance optimization. I strive to contribute to innovative projects and collaborate with cross-functional teams to bring creative ideas to life.

PROJECTS

Billing System for Stores
Feb 2022 - May 2022
Enters product codes & quantities, calculates itemized totals, and determines change due.

Algorithm Visualizer
Jan 2023 - May 2023
It allows you to choose an algorithm (like sorting algorithms) and then visualizes how it sorts or processes data step-by-step, making it easier to understand the logic behind the algorithm.

Brushwizards: Enchanting Art with Hand Recognition System
July 2023 - May 2024
The Virtual Hand Gesture Painting system utilizes computer vision to allow users to paint with hand gestures in real-time. This innovative approach eliminates physical input devices, creating a more natural and intuitive digital art experience.
